Whitelist IPs

Whitelist IPs:

Add IPs that can pass plugin security

You can white-list a single IP like 192.168.0.1 or a range of 245 IPs like 192.168.0.*. Find your IP with <https://whatismyipaddress.com/>

Disable All Features

Deactivate the plugin when accessing from whitelist IP addresses.

Help & FAQs

STEP BY STEP PLUGIN SETUP

How To Hide Your Site From Detectors & Hackers Bots

How To Use Brute Force Protection

How To Use Events Log

Hide WordPress from Theme Detectors or from Hackers Bots?

Theme Not Loading Correctly & Website Loads Slower
